

Intellectual and Developmental Disabilities

Comprehensive, person-centered services and supports for adults and children with intellectual and other developmental disabilities

For more than 30 years, Liberty Healthcare Corporation (Liberty) has provided programs that deliver diverse services and supports for adults and children with intellectual and other developmental disabilities (I/DD). Our experience includes managing residential programs, safely transitioning people from institutional settings to community-based living, delivering targeted community clinical supports that strengthen provider capacity, facilitating access to services through independent assessments, and managing quality oversight programs.

Liberty is certified by CMS as a Quality Improvement Organization (QIO)-like Entity and has years of experience providing statewide quality reviews of home and community-based services (HCBS). Through a field-informed approach to analytics, we help state Medicaid and human services agencies meet waiver requirements and make care management decisions that lead to improved health, personal, and financial outcomes.

PROGRAMS AND SOLUTIONS

Program Management

Short-term residential treatment for adults and children with I/DD

Independent Assessments

Functional assessments and eligibility determinations for Medicaid waiver services

Quality Management

Statewide quality oversight and risk management of I/DD services

12,000+

initial and annual eligibility assessments for children and adults with I/DD per year

30+

new quality assessment tools developed for HCBS services

90,000+

annual critical incident reviews conducted in support of health and welfare

THE LIBERTY ADVANTAGE

- Decades of experience transitioning people with I/DD and co-occurring disorders from facilities into the community
- History of developing quality assessment tools and risk management checklists to evaluate HCBS delivery
- Track record of helping states address issues raised by USDOJ and CMS under CRIPA, Olmstead, ADA, and other regulations
- Proven commitment to the principles of person-centeredness and national frameworks such as Charting the LifeCourse (CtLC), as well as those advanced by the Council on Quality and Leadership (CQL)

"Liberty's strong performance has not only allowed us to achieve our objectives but to exceed them. The program has become the keystone support for the state's most challenging individuals with I/DD ...

Under Liberty's operation, the program has successfully passed every survey conducted by the Department of Health. Liberty's operation has been an unqualified success."
